NEXT LEVEL CYCLE

YOUR VERY NEXT ACTION CREATES YOUR
VERY NEXT RESULT...BUT HOW?

Decide

Decide to **DO** something. Not to try something, or not to give something a chance. Decide to do it without a back up plan, and without excuses or predetermined scenarios where it does not work.

Do

Once you have made a decision it is time to take **ACTION**. We don't second guess it, we don't think about it, and we don't give ourselves permission to do it lightly. If we decide we do it full out until we **GET** a result.

Get

Taking action will always bring us a result. Make sure you took enough action to get an actual result, not just a preliminary result. Once you know what that decision and action got you then it's time to go back to the top and decide to do it again or make a shift in the process to get something different.
