

— **ACADEMY** —

NEXT LEVEL PROCESS

**NOT ALL ACTION IS CREATED
EQUAL. ACTION IS A PROCESS**

Thinking

Action

Habits

Results

This is your STATE. We like to think that thinking is just what happens TO us. It is actually the result of the energy and frequency you are experiencing mixed with what is happening around you. Next Level thinking requires a Next Level STATE. Change your state and change your life.

Doing the right thing at the wrong time won't work. Doing the wrong thing at the right time won't work either. Once we are in state we then take action from this Next Level place.

Taking action can have a temporary effect, taking the same action consistently creates habits and start building long term effects that you actually want. Habits are the bridge between actions and results.

This is what you are here for, right? This is the result of the work in the first 3 steps. This stage is promised, guaranteed, and inevitable if you just **DON'T GIVE UP.**
